Project Submission and Report

What to do

1. Zip all files of your project related files into a zipped folder named as "ProjectFinal"
2. Prepare a brief 2-page project report

Document deliverables

The final report (Word and Pdf document) should contain the following information:

1. Introduction: Brief introduction to your website
2. Design: Design considerations of your website
3. Organization: Introduce the organization of pages your and include a site map (according to your final completed pages)
4. Tests: A summary of tests and improvement that you have done
5. Future Work: Possible future enhancement of your project
6. Conclusion: Concludes the whole project process

Submission:

Zip all the **files of your project** and the **report document** and submit to D2L.
