1. CPSC1150 CPSC1050 CPSC1181 CPSC1160 CPSC1045 and CPSC2130
2. I don't really have experience in web development, 3/5. I am lacking in the fundamentals.
3. I am motivated to improve my GPA, I wish to learn web development, great instructor
4. Learn the fundamentals of web development, improve on my knowledge in web development, and jQuery
5. I would prefer detailed feedback if possible I wish to learn what my mistakes are to avoid them in the future. If you could let me know how my answers suit the solution better, that would be great. Thank you!
6.
   a) the url YouTube.com
   b) The purpose of this website is to stream videos to users. For entertainment, learning and more.
   c) It is intended for everyone of all ages, regardless of country
   d) Yes I do believe this website reaches its intended audiences. Almost everyone uses it, anyone with access to a phone, computer or a tv uses it at some point.
   e) This site is appealing to me. The colours with dark mode is very gentle on the eyes, the media thumbnails and video preview makes the experience better than reading just the titles of the videos. Navigation is very intuitive, search bar on the top, or top right with a magnifying glass (on mobile) and media in the centre.
   f) Yes I would recommend others to visit this site because I use it everyday to learn and pass time.
   g) This site can be improved with less ads, unstoppable ads to be specific.
